

## ***Does MGE Want to Cripple Clean Energy?***

Madison Gas and Electric (MGE) proposes increasing customers' fixed electric charges from \$10.44 to \$19/month next year!

**Do you want to pay \$19/month before you even flip a light switch – or nearly \$70/month in 2017 as they originally proposed?**

**Rewarding Waste:** High energy users pay less –  
Low energy users pay more.

**Burdening low income households** and apartment dwellers

**Penalizing Clean Energy:** Increasing payback periods for energy efficiency and solar

**Worsening Climate Change:** Keeping us more reliant on coal and other fossil fuels

**Hurting our clean energy economy and flying in the face of Madison's Sustainability Plan**

**MGE:**

***Moving Our Energy Future Backwards***
